

## OUR ENERGY POLICY

As "Tat Gıda Sanayi A.Ş. ;

- In our operations, we adhere to all applicable laws regarding energy efficiency, use, and consumption, and we develop practices that go above and beyond these requirements.
- We develop applications to ensure that our activities utilize energy efficiently.
- We focus on effective energy and resource management.
- We implement and maintain an energy management system in our manufacturing facilities.
- For our production processes, we favor energy-efficient machinery, and we perform routine maintenance on our existing machinery and equipment.
- We track our energy consumption and share the results with our stakeholders.
- We consider training our employees and educating our stakeholders about energy efficiency as a foundation, and we conduct research in this area.
- We examine our practices and make preparations for the transition to renewable energy sources.
