

OUR SUSTAINABILITY POLICY

As "Tat Gıda Sanayi A.Ş. ;

- We develop products that will ensure customer contentment by adhering to stringent quality standards in our manufacturing processes.
- We adhere to all applicable laws and obligations and develop and implement environmental, social, and governance best practices in our operations.
- We assess our social, environmental, and governance risks and develop corresponding action plans.
- At the point of protecting natural resources and the environment, we receive the support and contributions of all our stakeholders, from our suppliers to our customers.
- To provide social benefit, we conduct studies that protect human rights, and we receive the support and contributions of all our stakeholders, from our suppliers to our clients.
- We develop R&D initiatives and support the use of innovative technologies that contribute to sustainable development.
- We conduct research to preserve the extant soil structure and biodiversity in our operational areas.
- Our work environments are designed to assure the health and safety of our employees, and we expect the same from our suppliers.
- To increase the sustainability efficacy of our supply chain, we intend to conduct research and develop practices.
- We evaluate the sustainability policy and practices at least once a year with the sustainability committee and our stakeholders.
